### System and method for the secure data entry from document images

US Pat. 6741737 - Filed Mar 16, 1999 - ChoicePoint Asset Company

The system of claim 45 wherein the first computer and **program** and the data entry computer and **program each** further comprise converter means for encrypting ...

### Security system for microcomputers

US Pat. 4757533 - Filed Sep 11, 1985 - Computer Security Corporation

If it is not **encrypted**, then exit to DOS ensues without decryption. FIG. ...

with the ES (Extra **Segment**) register and the BX (base) register pointing to a

...

### Methods and apparatus for secure distribution of software

US Pat. 6966002 - Filed Jun 9, 1999 - Trymedia Systems, Inc.

3A in which the amount of information in **each** version is varied by removing ...

4A is a spectral diagram of a **segment** of an audio signal to be included as a ...

### Backup/restore technique in a microcomputer-based encryption system

US Pat. 5008936 - Filed Dec 9, 1988 - The Exchange System Limited Partnership

This would happen because the substitution of the authorization **segment** to ...

the security of the DES keys under which data is **encrypted** or authenticated. ...

### Method and system for performing secure electronic messaging

US Pat. 6002769 - Filed Sep 4, 1997 - Secure Choice LLC

Step 6 — Decryption of Remaining **Encrypted** Numbers Next, **each** remaining ... the

formula value is **returned**, and this is the **segment** value for the first ...

### Signalling scheme for controlling data encryption device in an electronic ...

US Pat. 5175766 - Filed Jul 25, 1991 - The Exchange System Limited Partnership

This would happen because the substitution of the authorization **segment** to the

denial ... of the DES keys under which 50 data is **encrypted** or authenticated.

...

### Mobile station originated SMS using digital traffic channel

US Pat. 6097861 - Filed Nov 6, 1996 - Nokia Mobile Phones Limited

The status of **each segment** is given, with **segment** zero present in the LSB of

byte one and the status of **segment** 255 given in the MSB of byte 32. ...

### Encryption key entry method in a microcomputer-based encryption system

US Pat. 5016277 - Filed Dec 9, 1988 - The Exchange System Limited Partnership

This would happen because the substitution of the authorization **segment** to ...

the security of the DES keys under which data is **encrypted** or authenticated. ...

### Power supply arrangement for fault-tolerant operation in a microcomputer ...

US Pat. 4937288 - Filed Dec 9, 1988 - The Exchange System Limited Partnership

This would happen because the substitution of the authorization **segment** to ...

rely on a dedicated encryption device for **each** data communication channel. ...

### Electronic postage scale system and method

US Pat. 5615120 - Filed Jun 7, 1995 - Ascom Hasler Mailing Systems, Inc.

**Each** block is capable of 100000 **program/erase** cycles. ... On the other hand, the

deleting each of returned encrypted program
